

Lineage: What If The Universe Gave You A Gift?

Seeing is Believing. For the past 2000 years the Universe has asked mankind to believe in God without proof. Now there has been a policy change. Since the beginning of 2006, Nancy Burson has been allowed to show audiences in the US and Europe the highly sentient Light Beings she calls the Extra Celestials (ECs) that she originally met in a crop circle in 2004. Nancys quirky yet poignant journey features the miraculous phenomena of glow-in-the-dark statuette dancing Mother Mary. She was a gift from Irish Avatar Derek O'Neill, whose car runs on love not gas and who magically creates rainbows and shape-shifts into other humans with ease. Read Lineage and discover the real reason why the Rays, or ECs are here for contact withmankind at this time. Much of what you read in these pages will challenge your views of reality and so much more. This information was given to Burson directly from the I Am Presence. Their love was the guiding force in writing this book, and now it is her offering of love to you. When you can see what Burson sees, you too will know what an amazing place the Universe is. Now is the time for all of us to access our own experience. The information included here is an opportunity for everyone to heal and explore our own personal relationship to the Divine. This is the time for each of us to choose that for ourselves, and when we do, we heal each other and our planet simultaneously. The front cover is a photo taken in photographers garden January 2007. It is a twelve-second exposure: one of seven consecutive shots taken over a five-minute period in complete darkness. This face of an EC appeared for over one minute.
