

# Critical Voicings of Black Liberation: Resistance and Representations in the Americas (FORECAAST)

The contributions to Critical Voices of Black Liberation in the Americas originated from the 1999 CAAR Conference in Munster and from conferences held in the US in 2000 and 2001. More than half of the eleven essays consider black performances on stage, in sound, and on film; the remaining essays explore slavery, African American literature, and nineteenth-century black educators. These exciting essays creatively examine artistic and/or political articulation of black liberation as the construction of a new critical and signifyin(g) voice. This liberated and critical voice asserts itself as much as a communal expression of black subjectivities as it is an articulation of the black self.
