

Spiritichilism By Definition

Spiritichilism By Definition is a book of thoughts, ideas & poetic expression defining Spiritichilism, which is the study of a state of consciousness, whereby one becomes aware of ones relationship to all, in the knowingness that we are all one, on separate pathways to enlightenment. Through Spiritichilism we find common ground and immerse our selves into a melting pot where an inkling of hope can fellowship with a dash of faith, seeing no color, no religion, only love.
